Ok, just so I can make sure to present this accurately to the board and for the City:

Delivery fee of \$1,200 will have to be charged because it will be considered an additional trip as you are not planning to travel to the area... However, the delivery will be scheduled at a time during your next planned trip to the area? Is there an estimated time frame when that might be, and the size of the storage needed.

Storage fees are currently being waived (thank you), but as of April 1st, 2019, storage fees of \$400/per month will be charged until the decorations are delivered or picked up.

Thank you again.

Sincerely,  
Sarah Williams

I apologize for any miscommunication between us. The cost for us to deliver the product will be 1200.00 and that would be on our next trip to the area. I want to also give you notice that since we did not install last year there would be a storage fee (since this was of no fault from us or your organization) we waived that fee. However beginning April 1, 2019 there will be a \$400.00 per month storage fee until the items are delivered or picked up. If we can have this resolved before then there be no additional charges.

I am sorry, I don't understand, when we spoke on the phone, we had talked about how the board would have to weigh in so it wouldn't be until after February; you said again the sentiment expressed in your email, you understood and wanted to honor your history with the Sweeneys. There was disappointment on both sides that it couldn't be accomplished this year... Had I known that after February was "ok" but that meant charges would be incurred, I would have pressed for a special meeting to be held if it needed to be sooner.

Your facilities are in Fresno, correct? And I am guessing someone would have to rent a trailer and drive to your facility and back. So what would you like to charge the NC now for dropping off the decorations? We are approaching the end of our fiscal year; It will have to go through Committee approvals and board approval, which will be a long process. If you will be charging over a certain amount, we will also need to get permission from the City. Please let me know at your earliest possible convenience what time period is acceptable and what the charges will be.

Thank you.

Sarah,

Unfortunately that offer was for us to deliver them during our holiday removal period while we were bringing a trailer that way. WE would have to add a charge to deliver them now since we won't be traveling that way. Or you can have someone pick them up at our facility.

We were going to take you up on your generous offer of delivering them to us, if that still stands.

Hi Jeremy:

I hope you are well. Just following up in case you did not receive my previous message-

We were wondering when a good time to coordinate getting the holiday decorations would be? We believe there may be enough room at our space to accommodate temporary storage of them, but it would be great if you could connect with our Chair of Community Space, Rob Vogel (copied), as he is much better with dimensions than I would be...

I appreciate the effort you put into trying to make last year's installation happen, and trying to meet all requirements with the city. Thank you for your assistance and the work you have done with the council! If you have any questions or need to connect, please feel free to contact me.

Sincerely,  
Sarah Williams
